# Type II Barricades

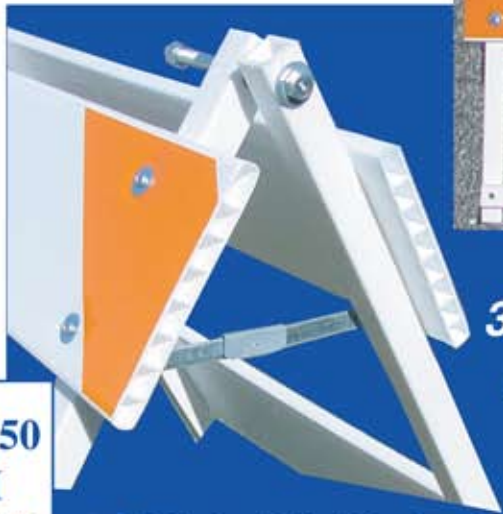

## New from ksi...The Jammer

If you get into a jam, our **WBT2 Barricades** can help you out. They are NCHRP-350 certified and meet MUTCD standards. Lightweight and easy to handle, these traffic control devices are built to last and engineered to meet your specific needs and requirements. Panels can be covered with **3M™** Diamond, Prismatic Hi-Intensity, Hi-Intensity or Engineer grade sheeting on one or both sides of the barricade with left or right slant pattern. Impact resistant legs and cross bars are made of 1-1/2"x1-1/2" x1/4" thick HDPE tubing. Type II barricades come in two sizes, either 24" or 36" wide with extruded or fluted plastic panels from 8" to 12". They are also available with steel legs.

**NCHRP 350  
CRASH  
APPROVED**

Korman Signs continues its extensive crash testing with Type II barricades. Approval includes use with barricade light (up to 4.4 lbs.) & 2MM **ALPOLIC® 350** signs mounted to panels.

**36" Jammer  
Barricade**

- *Side lock holds barricade in secure open position*
- *36" Type II gives greater visibility & performance*
- *Barricade legs intermesh for compact storage*
- *Barricade light attaches easily with 7" bolt - sold separately*

OPTIONAL 2MM ALPOLIC® 350  
SIGN MOUNTED ON PANELS  
UP TO 48"X48"

SANDBAGS CAN BE PLACED ON  
CROSS BAR FOR ADDITIONAL  
STABILITY

## The EZ-Kade

### *A Barricade that's Easy to Set Up, Transport & Store*

Introducing our new "Quick Release" barricade that makes set up & storage a snap. There are no parts or pieces to keep track of and no tools necessary to drop and fold the barricade. Just lift up and the uprights lay flat, its as easy as that!

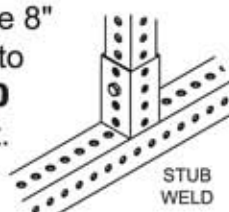

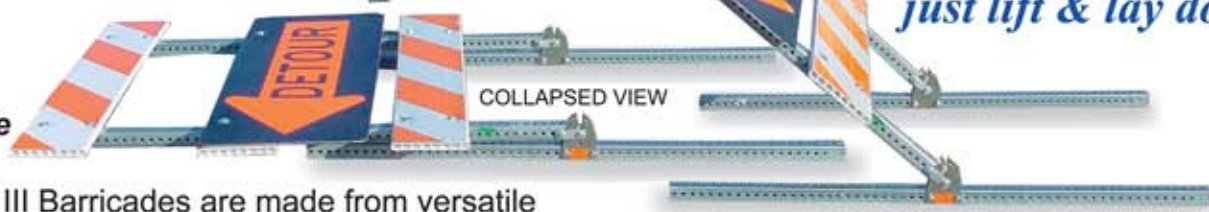

*Quick  
& Simple  
to Collapse  
& Store*

*Look how easy -  
just lift & lay down!*

#### **Barricade Basics...**

Our Type III Barricades are made from versatile galvanized square tubing for both the skids and uprights. The skids are connected to the uprights by either hinge plate brackets or stub weld receiver. The panels are available 8" wide in hollow core plastic or up to 12" wide in 2MM **ALPOLIC® 350** in lengths of 4-ft., 6-ft., 8-ft., 10-ft. and 12-ft. Reflective sheeting is available in **3M™** Diamond, Hi-intensity Prismatic, Hi-intensity or Engineer grade on one or both sides. The pattern can be right slant, left slant or chevron. Assembly required.

WB3 Series Barricades  
NCHRP 350 APPROVED  
FHWA Letter WZ-100

#### **Barricade Model Numbers**

- WB3HP - EZ-Kade**
- WB3HPH - EZ-Kade and Horizontal Crossbar**
- WB3SW - Stub Receivers**
- WB3SWH - Stub Receivers and Horizontal Crossbar**

NOTE: All of our Type III barricades are approved to display single 2MM **ALPOLIC® 350** signs up to 33 square feet or any combination of signs up to 33 square feet of sign mounted to single or multiple rails, at twelve inches minimum from ground to bottom of sign per WZ-100 acceptance letter. **ALPOLIC® 350** is protected by the following: U.S. Patent No. 6,569,510,B1. Violation of these rights is subject to liability for infringement to the full extent of the law.

## Type III Barricade Options...

There are many options to choose. From hollow core plastic or **ALPOLIC® 350** rails, with or without lights, with or without signs, with or without brackets, and the optional crossbar for added strength. Sandbags can be used up to 200 lbs. or stakes can conveniently be placed thru the perforated legs for extra stability. Square tubing makes for durable, stronger barricades that are built to last over the long haul. They are the right & safe solution for your Type III Barricade needs.

**WBT3 SERIES**  
**5' High x 8' Long**  
**Barricade**
